ASHIMASHI PRODUCTION GROUP

## Sirang Koohrang Company

This company established in 2003, to produce preform, PET bottles, mineral water, carbonated Soft drink and Non-alcoholic Beer.

The beautiful design of the bottle and labels and using tape handles on the box for making them easily portable, colorful pet bottles and... all makes Koohrang Mineral water a particular product.

By utilizing the most modern technology of the world, this company is one of the limited groups in the country which have the highest capacity for producing Mineral water. The water is obtained from the headwaters of Zagros Mountains, and run to the company via natural filters.

### Bit burger Nonalcoholic Beer

For completing its beverage products basket and distributing these products in the world famous brands, In 2006 this company performed advance plan by installation of newest and most modern lines of the highest technology of the world for producing carbonated soft drink and also non alcoholic Beer which was licensed by Bit burger Germany. Sirang Koohrang Co. is the only representative of Bit burger Co. through the Middle-East.

### Bit Malt appropriate for Iranian Taste

The production lines in Koohrang is designed in a way that no alcohol will be produced on the whole process and so there will be no need to eliminate the alcohol on the production trend at all. Most Muslim countries who care this issue are the great consumers of German non alcoholic beers, since they believe that Iranian Beers are completely non-alcoholic and "Halal".

ASHIMASHI PRODUCTION GROUP
