

# KAYHAN INDUSTRIAL PRODUCTION GROUP

- Kayhan production & industry group founded in 1968, began its activity in the field of electricity and electronic industries in Iran. Gradually enhanced its products from branched and boosted antennas to different kinds of energy saving and florescent magnetic ballast and known as the largest manufacturer of magnetic Ballast, became the top supplier of power ministry of Iran. Then in the years between 2009 to 2014 expanded its activity to assembling variety of energy saving and Ultra energy saving lamps and from 2014 to 2017 has become to be known as one of the 3 poles of Iran's lamp & lighting industry.
- Today, with a very active presence in the countries such as UAE( Dubai), Azerbaijan( Baku), Iraq( Baghdad) and Afghanistan (Kabul), Kayhan Has continued the mass sales of its products and the raw material of the Ultra energy saving and also the vast programs of enhancing export, has made Kayhan production & industry group to pass the steps of success one after another by having a customer friendly attitudes, high quality and becoming universally known.
- Kayhan production & industry group employing 19000 square meter site in two regions of Guilan Province, 9000 square meter in Rasht Industrial city and 10000 square meter in Sefidrood Industrial city, has performed its productive and industrial activities.
- Products: Ultra Energy saving lamp, Energy saving lamps, Floodlights, Ultra energy saving Panels, Magnetic and Electronics Ballast and other products.
