

# Ajam Choubar Talesh

## Trading & Refrigerating Company

As one of the leading companies in the production and export of all kinds of fruits and vegetables in Iran, Ajam Company has always aimed to improve the level of progress and development of this great industry and also to position itself at the level of the world's leading producer and exporters with the highest quality and adapt to global market standards.

# Kiwi Fruit

## Ajam Choubar Talesh Trading & Refrigerating Company

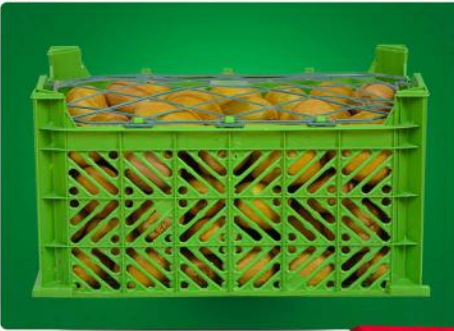

Ajam Company was established in 2000, simultaneously as the first kiwi trees were planted in Choubar. We were aware from the beginning that we had an ultimate goal in mind and we were thinking about exporting our products worldwide. We came to this conclusion that export was our mission and we did not think of any other purpose. The young seedling of our company has grown over the years and now it is 23 years old. 23 years of experience, continuous effort, love to produce the best agriculture corps and export them all over the world.

Ajam choubar talesh trading & refrigerating company is the first exporter of kiwi in Iran and among the main suppliers of kiwi in Iran. By planting kiwi in Talesh and cultivating kiwi in Astara, this company has made it possible to buy hard and resistant kiwi in the seasons when kiwi is available.

By planting and growing organic Iranian kiwis, our company is trying to satisfy buyers and importers of kiwis as much as possible. Undoubtedly, buying from the biggest kiwi producer in Iran, Ajam, will save money and get the best kiwi in Iran.

The sorting and packaging center of Kiwi is located 20 km from Astara. With 3 cold storages of 5000 tons in Astara and Choubar, we can store kiwi in the highest possible quality for up to 9 months. Our company is equipped with the most advanced kiwi sorting machines in Iran.

# Quality Dill and Parsley

Naturally, the exported dill and parsley, which is intended for sale in the market of different countries, must first have excellent quality and also be offered to customers at a reasonable price. When it comes to customer satisfaction, it pays off a lot for businesses.

We carry out all the steps of planting, harvesting, packing, loading and clearing goods from the Astara border in Iran, rest assured. The price of vegetables in Iran is daily and we will give you a free product and advice before buying. We will rent refrigerated containers to all cities in Russia for you at Ajam Company. Before packing, we doubt all the products to cool so that the heat of the product disappears and you become green in the packaging, and parsley. Reach. We also use thermographs and thermometers in all refrigerated containers.

## Having the most equipped cold storages

The modern cold storages of Talash/Choubar Ajam Trading Company have an area of more than 20,000 square meters and a capacity of 7,000 square meters.

The company has actively operated 3 cold storages in the north of the country (Talesh city, Choubar) and 1 cold storage in the south of the country (Dezful city), which are equipped with the most advanced refrigeration systems and modern methods in the world.

**GilaFruit is a giant branch of the fruitful tree of Ajam Company**  
Introducing the international sales unit
