Exhibitor feedback

ПРОМЕТ

Сохраним без потерь ■

The goals we set for ourselves in holding this exhibition have been achieved. I believe that the conversion to sales will be quite high.

Anatoly Usynin, Promet

ВИРАЗЖ

ГРУППА КОМПАНИЙ

“We strive not to miss this exhibition, as our company is engaged in mechanical engineering. We have been operating in Kazakhstan for quite a long time and every year we present new products that we have mastered on the auto assembly conveyor. For us, this is relevant, and this is our main profile exhibition.

Dmitry Lokhmatchev, Virazh

SVARKA.KZ®

Our target client is at this exhibition. We have found new partners and clients here. Overall, everything is excellent, at the highest level as always. However, this year we see especially better results in terms of business contacts.

Visitors

Expand your presence in the markets of Kazakhstan and Central Asia.

By participating in the exhibition, you get a unique chance to reach the maximum number of potential customers from all regions of Kazakhstan and Central Asian countries.

77%

Highly appreciated the effectiveness of our visit to the exhibition

61%

Got acquainted with the solutions to 50 companies during the visit

66%

They rate the awareness of this event as «high»

93%

Noted the high quality of exhibitors

70%

Highly appreciated the product sections of the exhibition

The exhibition gathered 3087 professional visitors and was attended by representatives from all 42 regions of Kazakhstan

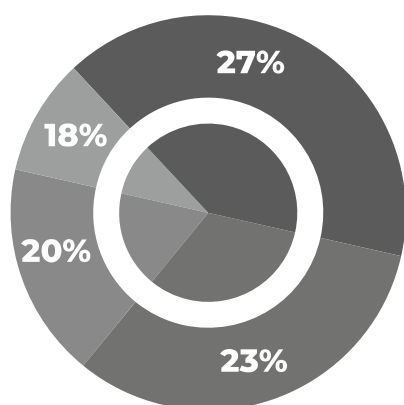

The exhibition attracted visitors from 21 countries

Meet with key company executives

73% of professional visitors influence the decision to purchase products and solutions presented at the exhibition.

Among visitors

What to expect in 2025?

Forum of Kazakhstan Machinery Manufacturers

The event became a dialogue platform for more than a thousand managers of leading Kazakhstani and foreign industrial enterprises, representatives of central government bodies, development institutions, business associations and large consumers of manufacturing products.

Conference «Modern laser technologies for industrial enterprises».

The conference is dedicated to discussing the latest achievements and applications of laser technologies in industry. The event program covers topics such as innovations in the field of laser technology, hand-held laser machines for welding and cleaning, and much more.

ToolTechExpo – Specialized Exhibition of Tools and Technologies

ABOUT THE EXHIBITION

ToolTech is a specialized exhibition of tools and technologies, held alongside the International Specialized Exhibition for Machinery and Metalworking, Kazakhstan Machinery Fair. The exhibition brings together manufacturers and suppliers with representatives from dealer and retail networks, as well as end customers from various industries interested in purchasing hand, electric, and mechanical tools.

Electric and Gasoline Tools

Measuring and Control Instruments

Compressor, Generator, Hydraulic, and Pneumatic Equipment

Abrasive Tools

Hand, Assembly, and Construction Tools

Fasteners, Hardware, and Accessories

Electrical Equipment and Power Tools

Tools and Equipment for Material Cutting and Processing

Consumables

Exhibitors include suppliers of tools and equipment from Kazakhstan and abroad, aiming to increase sales, expand their client base, and enter new markets.

Consumers of tool products:

- Wholesale and retail trade
- Construction and renovation
- Metalworking industry
- Machinery and equipment manufacturing
- Woodworking and furniture production
- Management companies and public utilities
- Transport and telecommunications companies
- Car repair shops and service centers
- Other related industries and enterprises
